

# Coconut Shake Blender

<http://www.melakapages.com/strategisteel/>

## Specifications

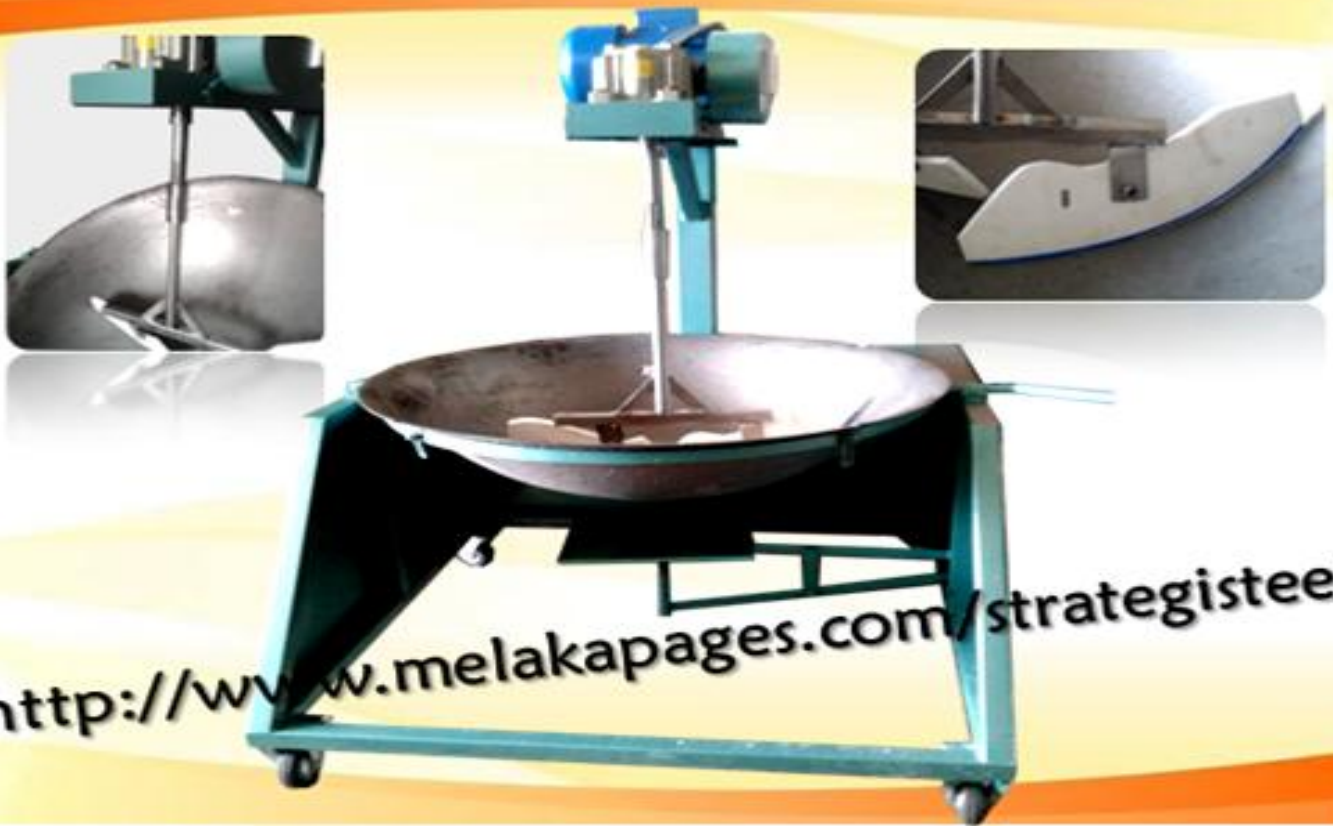

Model	Capacity (L)	Power (hp)	Voltage (V)	Dimension (cm) L x W x H
ST-HDB	4	1	240	50 x 25 x 60

## Product Feature

- Large jar with precision-tuned 4 blade package
- Jug can be removed easily for hygiene process
- Machine can operate for 8 hours straightly
- Smoother blends, less time-take for blending
- Use heavy duty type of motor power
- Ridiculous blending power with 3000 rpm per minute
- Klebang Coconut Shake is one of our customer

# Dodol Machine

## Specifications

Model	Power	Voltage	Dimension (cm) L x W x H
ST-D1	1hp	240V	103 x 103 x 120

## Product Feature

- The process of making Dodol is faster than manual
- Automatic stirring system
- Super Pan can be used to pour
- Adjustable kitchen (higher or lower)
- Stirrer blade made of Teflon
- Blade can be put off for hygiene

# Egg Roll Machine

<http://www.melakapages.com/strategisteel/>

## Specifications

Model	Mold Quantity	Mould Diameter (cm)	Machine Dimension (cm)
ST-10	10	Ø 145	Ø 90 x 61

## Features

- High production egg roll processing machine
- Intelligent machine for pure flavor as nice as handmade
- Easy to handle with less noise and pollution-free
- The device uses gas burner as fuel
- Hygiene standards, to better protect environment
- Body made from Stainless Steel
- Production rate about 300 to 350 pieces per hour

# Tart Machine

5 Moulds

<http://www.melakapages.com/strategisteel/>

## Specifications

Model	Capacity (pcs/hr)	Power (hp)	Voltage (V)	Dimensi (cm) L x W x H
ST-205	100 ~ 200	1	240	90 x 50 x 30

## Product Feature

- Tabletop
- 5 types of moulds is provided
- Can use different mould to make different shape
- Easy operation and high efficiency
- Light and easy to lift
- Manual dough cutting by using hand pedal
- About 2.5 kg flour used per hour
- Suitable for egg tart skin forming
